

Opera®

Fungicide

Aim for double the difference in cereal yields.

Opera® is a top performance choice for growers to control a broad range of diseases in a range of cereals proven to boost grain yields.

Get the most out of your cereal crop with a two spray Opera program. A two spray program of Opera Fungicide can deliver near double the yield response in barley compared to a single spray program. It gives wheat crops a performance boost too.

**Are you looking to increase your grain yield?
Data generated in Western Australia in 2013 shows the
benefit of a double spray Opera disease control program.**

Spray Program	Application Timing	Barley Net Form of Net Blotch		Wheat Septoria Nodorum
		Mundah	Yagan	Millewa
Untreated Control	–	2.5 t/ha	1.7 t/ha	3.5 t/ha
Single Spray Opera Program	Flag Leaf	+0.8 t/ha	+0.6 t/ha	+0.25 t/ha
Double Spray Opera Program	Early Jointing and Flag Leaf	+1.3 t/ha	+1.1 t/ha	+0.4 t/ha
