

Zampro[®]

Fungicide

A new mode of action and resistance management tool for the preventative control of downy mildew in grapevines.

Zampro **with a dual active ingredient formulation**, offers vineyard managers lasting protection through having a high affinity with the plants waxy cuticle and through redistribution under the influence of moisture. This offers excellent and lasting cluster and leaf protection in high downy mildew situations.

Benefits

- New Group 45/40 fungicide with two active ingredients.
- Highly active against downy mildew spores.
- No cross resistance with other commercial downy mildew fungicides.
- Provides a stable protective shield through adsorption on the plant tissue wax layer.
- Zampro redistributes on the leaf under the influence of moisture.
- Redistribution ability offers excellent grape cluster protection.
- Built in resistance management with two modes of action so no need to tank mix.
- Rainfast in one hour.

Viticulture Solutions

Controls	Product		
Downy mildew	Zampro[®] Fungicide	Cabrio[®] Fungicide	Delan[®] 700 WG Fungicide
	Acrobat[®] Fungicide	Polyram[®] DF Fungicide	
Powdery mildew	Vivando[®] Fungicide	Cabrio[®] Fungicide (tank mixing partner recommended)	Filan[®] Fungicide (grapes not for export – refer to AWRI Dog Book)
Black spot	Delan[®] 700 WG Fungicide	Polyram[®] DF Fungicide	
Phomopsis cane and leaf spot	Delan[®] 700 WG Fungicide	Polyram[®] DF Fungicide	
Botrytis	Filan[®] Fungicide (grapes not for export – refer to AWRI Dog Book)		
Fig longicorn	Regent[®] 200 SC Insecticide		

 Insecticide  Fungicide

When it comes to controlling diseases like powdery mildew, downy mildew, phomopsis and black spot, BASF fungicides have been setting the standard for years. BASF's global innovations make it possible for viticulturists to grow quality grapes for people to enjoy their favourite wine.

BASF is a global leader in crop protection, partnering with the Australian viticulture industry to support the biggest job on earth, farming.

Available from local crop protection distributors. For more information call 1800 558 399 or visit agro.basf.com.au/crop-solutions/horticulture to download a brochure.
